# CHRYSANTHEMUMS AT SWANLEY.

HOW NEW CHRYSANTHEMUMS ARE PRODUCED.

HENRY CANNELL, F.R.H.S, M.S.A., H.M.C.A.B

(A Reprint from "Black and White.")

(2.)

## Interview with Mr. H. Cannell, F.R.H.S., abridged from "Black and White," 10th October, 1896.

REPRESENTATIVE of Black and White went down to get some information on this subject from Mr. Henry Cannell at "The Home of Flowers," Swanley. For some time after his arrival he was content to wander about the 17 acres of ground with kindly guides and delight his eyes with such a wealth of flowers as is not often granted to the Londoner to see except in dreams. The Geraniums were at their best, and there were great sheets of radiant colonr. In one secluded corner it was peculiarly pleasant to linger. This was the rockery, where water was plentiful, and cool green things enabled one to defy the prevailing heat. Wild Strawherries grew there, and a clump of Sea Pink and a big plant of the Yellow Horn Poppy. Wherever you went there was one infinitely refreshing thing—the innumerable tall hedges, which make a most delightful shelter for there is wind among the leaves mean the subtriest day, while the simplicit silvers delightful shelter, for there is wind among the leaves upon the sultriest day, while the sunlight silvers them as they tremble.

Mr. Henry Cannell is great on all Horticulture. Special attention has been given to Begonias and Chrysanthemums; the former were everywhere in evidence, and were heautiful beyond words, and Mr. Cannell must enjoy the spectacle after a fashion whereof the keenest lover of heanty is incapable, for many of the loveliest varieties there seen were boru, so to speak, under his hands at

Swanley.

But it was about Chrysanthemnms that the interviewer was chiefly curious, and especially ahont the raising of new varieties. Mr. Cannell showed a lot of seedlings from seed imported about the raising of new varieties. Mr. Cannell showed a lot of securings from seed imported from Anstralia last year, and went on to explain that it is the simplest matter in the world, when you know how, to send Chrysanthemnin plants to Australia so that they shall arrive there alive and flourish. Then he took a catalogue, at the interviewer's suggestion, and recalled some of the innumerable varieties which have been produced at Swanley. "And how do you set ahout raising new varieties?" Then Mr. Cannell picked a Fuchsia bloom, and splitting it down the centre, showed and described the whole structure of the seeding organs—the pollen-bearing anthers, the width to receive the wollen and conduct its effects into the seed, vessels. Nature in the popular the pistil to receive the pollen and conduct its effects into the seed vessels Nature in the nsual course performs all this by the aid of wind and insects, and Mr. Cannell explained that it is here that the art of the expert steps in, and, by a judicious selection of the parent flowers, he influences the progeny to a very great extent and produces occasionally a new variety which is an improvement in size, shape, colour, or habit on all existing sorts. Chrysanthem ams are substantially the same as other flowers in formation, and a like process has to be performed, hut, flowering at such a sunless season, other precautions have to be taken, the object of all he ng to throw the whole vigour of the plant into its seeding organs. "It has been by perseverance to meet the desire for new kinds that we have become so especially known for the enormous improvements we have made. We are now sending back to Li Hung Chang much larger and more elegant flowers, of hrighter colours, with more refined shapes, and plants of stronger growth than the first we got from China and Japan, where they are indigenous and esteemed as the national flower."

In reply to further questions by the interviewer, Mr. Cannell stated that anyone giving time and studied attention to the subject would be equally as likely to produce good results. It is very necessary to keep all the seeding organs perfectly dry, the pollen in the first place, and the other parts after that is transferred, by the removal of all damping petals. November is the month when most of this is done, as the majority of varieties flower then. The seed is sown in pans in February, and later on the seedlings are pricked out. By the time the Autumn comes the healthy plants—and those which are not healthy are rejected without ceremony—may have from one to three good flowers on them. These are examined, and, once in a hundred times perhaps, something that is your and beautiful is found.

new and beautiful is found.

"And what comes next? When do you proclaim your discovery?" "The plant is grown for two years, for, curionsly enough, the cuttings taken from a most promising seedling may fail to produce hlooms worth showing. But when we are perfectly snre that we have produced a valuable variety, it is exhibited at the principal shows, and after that we announce it, and seud out plants to Chrysanthemum lovers in all parts of the world."

There the conversation as to Chrysanthemnums came to an end, and here this account of the interview that produced it must likewise fluish. For there is so much to see at Swanley that, to write without rigid limitations as to space would be to produce a quantity of matter which a single number of Black and White could scarce contain comfortably.

For Show Box, Tuhes, &c., see pages 57 and 58.

## H. CANNELL & SONS'

# NEW CHRYSANTHEMUMS FOR 1897.

## JAPANESE.

ALL OUR OWN SEEDLINGS.

1027. BARON TAIT—A more refined and deeper flower than Exmouth Yellow; beentiful clear, rich yellow; large and attractive flowers of a distinctive character; extra. Crown binds. 68.

1028. CHAS. E. WILKINS—A very handsome flower; long narrow petals somewhat resembling Sunflower, and equally as massive and deep; white, shaded pink, finishing off to a pleasing tint of rosy pink; fine. Crown bud. 5s.

1029. ELLA CURTIS—In this we have a grand variety, and will be found indispensable for exhibition purposes; extra large bold flowers of a rich golden yellow, shaded light chestnut and bronze on the broad and fully expanded florets; good keeping qualities; a fine addition, and much admired wherever exhibited. Late crown bads. 5s.

1030. ERNEST CANNELL—A splendid introduction, producing immense-sized and refined flowers of the most correct incurved form; colour, a pretty shade of deep fawn margined soft red, reverse of petals creamy fawn, tinted deeper; quite distinct. Second crown buds; good culture. 6s.

1031. HAYDÉE FALBE—Of great size and depth; broad leathery florets forming into massive flowers of a hright chestnut with a soft golden reverse; distinct and effective. Second crown buds. 5s.

1032. LADY OPORTO TAIT—A fine novelty, and distinct from anything we have, and, although of a yellow colour, we have no hesitation in putting this forward as a most useful and attractive variety; splendid golden yellow, thick twisted broad petals; au acquisition. Crown buds. First-Class Certificate. 5s.

1033. LEONARD BROWN—Bright mahogany, reverse of petals bronze, broad petals; a distinct and handsome novelty; free and effective. Crown buds. 5s.

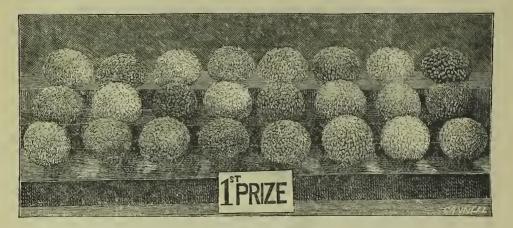

1034. MISS STORER—A most delicate and prettily-coloured variety; fine large flowers of a pleasing shade of blush pink, lighter towards centre, and finishing off to a creamy shade; a refined flower. Crown bads. 5s.

1035. ROBERT POWELL—A splendid variety, and a welcome addition to this class; fine well-formed flowers of a reddish chestnut, with a more golden shade to reverse of petals; good. Crown or terminal bads. 5s.

1036. SIR WM. HART-DYKE—Of good size, full and remarkably deep flowers of a very rich yellow shade, more intense and effective than W. II. Lincoln, and we anticipate this to prove a most valuable variety for cutting and marketing purposes owing to the splendid colour, compact formation, and good lasting qualities of its flowers; very free. Crown bud. 3s. 6d.

1037. SWANLEY GIANT—Certainly producing the largest and finest incurved Japanese flowers yet introduced; very bold and massive petals, perfect globular formation, lilac-pink; grand. Crown buds. 10s. 6d. Plants only in Spring.

## NEW INCURVED.

1038. AUSTIN CANNELL—Possessing the same bold petals and formation of flowers as the well-known variety M. R. Bahuant; large, well-formed flowers, of a purple-maroon shade, reverse of petals lighter; good. Crown buds. 5s.

1039. LEONARD PAYNE—A decided improvement on Baron Hirsch; long, broad, incurving petals, of a reddish-mahogany, with a lighter reverse; a fine introduction, and an advance. Crown bads. 5s.

## NEW POMPON ANEMONE CHRYSANTHEMUM.

1040. ERIC—In this we have a decided acquisition, and quite distinct to any other in this class; well-shaped flowers, good high centre, clear orange-buff outer florets, eushion of a deeper shade; good dwarf and compact habit; very free and effective. 3s. 6d.

## NEW EARLY-FLOWERING VARIETIES.

Blooming from Jane until the frost sets in, both are grand and useful additious.

1041. WHITE GRUNERWALD-A fac-simile of Mons. G. Grunerwald, and from which it is a seedling; pure white, fine flowers; very free. 3s. 6d.

1043. YELLOW GRUNERWALD—A beautiful yellow sport from the above. A most effective variety for the border or conservatory. 3s. 6d.

#### NEW SINGLES.

1043. IRENE—A most beautiful and attractive novelty; large, open flowers, of good form, white, flushed pink, and which continues throughout its flowering period; dwarf, bushy habit; good for exhibition and general decorative purposes.

1044. MRS. E. STAINES—Of the purest white; florets long and well developed, forming into well-shaped flowers; good high centre; very free flowering; valuable for growing into specimen plants; useful.

1045. STAR—A seedling from the well-known variety Miss Rose; extremely floriferous, and forming into handsome plants; medium-sized flowers of a pink shade. Much admired when exhibited at the Aquarium Show last November.

2s. 6d. each.

## THE GARDEN, 31st October, 1896. Royal Horticultural Society.

Lady Oporto Tait (Jap.), a very handsome variety, and an acquisition to the front row on any board of eut-blooms; the colour is a deep golden yellow, the petals long and broad, being disposed in the way of those of Thunberg; it is of medium size. Mrs. J. Lewis (Jap.), a remarkably fine show variety of large size, and the purest white; the petals broad, the build of the flowers being very massive and of great depth. Several varieties of Chrysanthemums, new kinds, were shown by Messrs. H. Cannell & Sons. The finest were Pride of Exmouth, a very lovely white Japanese, a full shapely bloom; Mrs. J. Lewis, also a large pure white; Lady Oporto Tait, a fine golden yellow, with thick twisted petals; and Robt. Powell, a handsome flower, bronze and yellow.

#### National Chrysanthemum Society.

Mrs. J. M. Lewis (Jap.), big and solid. The florets are bload, eurly, and intermingling; colour pure white. A. H. Wood, a pale yellow sport from Primrose League, large and spreading. Robt. Powell, a big solid incurved Japanese; colour golden bronze reverse, inside earmine chestnut; was very fine. So too was Ernest Cannell, of ordinary incurved form, full and double; colour, pale other-yellow. Another regarded as a promising novelty was Lady Oporto Tait.

## GARDENERS' CHRONICLE, 31st October, 1896. Royal Horticultural Society.

Messrs. H. Cannell & Sons exhib.ted two very fine blooms of the variety Mrs. J. M. Lewis, pure white Japanese, large and very deep. Award of Merit, also First-Class Certificate, N.C.S. Lady Oporto Tait, a broad floreted fancy Japanese with twisted florets, rich gold colour. Award of Merit. Ernest Cannell, an incurved flower of promising character.

#### THE GARDENERS' MAGAZINE, 31st October, 1896.

Lady Oporto Tait, a large Japanese variety with broad curling and incurving florets of the brightest gold colour. Award of Merit, R.H.S. Mrs. J. M. Lewis, a large white Japanese of compact form, florets broad and pointed. Award of Merit, R.H.S.; First-Class Certificate, N.C.S.

## THE GARDENING WORLD, 31st October, 1896. Royal Horticultural Society.

The grand yellow incurved variety Ernest Cannell was in fine condition in Messrs, Cannell & Sons' exhibit.

Baron Tatt writes:—I was appointed a judge for the Oporto (Portugal) Society. There was one exhibit of 80 plants, much the finest in the show. I was delighted to hear from the grower that he had received all his stock direct from Cannell & Sons. Somehow I always get on splendidly with what you send, while those from others, even my own, fail. I am puzzled to know how it is yours do so well.

## OUR NEW CHRYSANTHEMUMS.

(See pages 4 and 5.1

It has always been our aim and ambition to insure, so far as lies in our power, all our patrons being successful by specially preparing our stock, carefully selecting, and rapid despatch, so that they arrive in the lest possible condition to go forward and win, if as in the present instance, proper after-treatment is adopted, they carry success wherever they go. This is observed and freely commented upon far and near, and to make it perfectly clear we have only to refer to Mr. Mease's remarkable success with Chrysanthemums in the greatest centests both north and south for the long run of nearly 20 years. During this time we have, we believe, every year received and fulfilled an open order saying—"Enclosed cheque. Send me your selection of the best." The result is, these have assisted year by year in winning numerous trophies and the two Gold Medals and £30-the greatest coveted honours at the great National Jubilee Show—therefore he stands in the dignified position to-day of being champion of the champions, and we are delighted at his great and well-deserved success, for it goes far in confirming the high merit and value of our own seedlings, and the careful selecting from other raisers' varieties which we exercise. It should be borne in mind Pride of Madford, Australie, and Oceana are Australian-raised seedlings, and arc the best yet introduced from that part of the world. What is in evidence is that our own raised scedlings have a distinct dwarf habit with flowers of great size, depth, and broad florets, attractive build, and possessing a beauty not so strongly developed in other varieties. introduce the following, feeling confident that they will carry these who grow them to victory, and that gold mcdals will follow wherever they are grown and exhibited.

Our yearly increase in the sale of both plants and cuttings arises certainly from the fact that all varieties (1,400) are planted out and grown in open, pure country fields, cut down early—not allowed to flower—large clumps removed and replanted near the glass and light; stock from these are perfect, and the secret why all those we supply carry success wherever they go; striking easily, growing quickly, and producing larger flowers, and brighter colours.

We cordially invite all to

the oldest, finest, and best-kept collection in the world.

If any varieties worth grow ng are omitted from this Catulogue, please say, and, if wanted, they shall be immediately obtained and supplied.

## NEW VARIETIES FROM VARIOUS SOURCES, 1897,

#### WITH RAISERS' DESCRIPTIONS.

1016. ADA BIRCH (small single)—Light soft pink, with white zone; wonderfully free and very dwarf bushy habit; very similar to Nova in every way, but of lighter shade. 2 ft. 2s.

1047. ADA FOSTER (large single)—Deep bronze and yellow, a lovely shade. 4½ ft. Plants,

1048. AGNES PAYNE (small single)—Yellowish terra-cotta, pure single. 4½ ft. 2s.

1049. ANNIE BUTTERS (large single)—Deep canary yellow; should not be taken on the early bad, as it is best in sprays.  $3\frac{1}{2}$  ft. 2s.

1050. A. J. BALFOUR (Jap. Inc.)—This is quite a novel shade, and will make a most attractive flower; the colour is a muslin rose-pink, blooms of good size and snhstance, with broad petals; good habit. 4 to 5 ft. Crown bud. Plants, 7s. 6d.

1051. BEAUTIFUL STAR (small single)—Beautiful golden amber, reminder of a bright glittoring star. 3 ft. 2s.

1052. BESSIE RICE (small single)—Deep scarlet, pure single; bushy habit. 21/2 ft. 2s.

1053. BUFF PRINCE (large single)-Rosy buff, shaded cream; good shaped flower. 3½ ft. 2s.

1054. C. A. OWEN (Jap. Inc.)—Seedling from Robt. Owen; a massive bloom with broad hooked petals; colour a rich golden bronze outside, deep yellow inside of petals; full exhibition size. Crown bud. Awarded First-Class Certificate. Plants, 7s. 6d.

1055. DELIGHTFUL (Jap. Ref.)—Pure white, of the finest form, the fairly broad florets drooping gracefully, the points being undulated; very full flower, showing no eye. A real gem. 7 to 8 in. in diameter. Early terminal bnd. 5 ft. Plauts, 5s.

1056. DUKE OF WELLINGTON (Jap. Inc.)—Of enormous size and great substance, the massive incurving petals being quite \(^3\_4\) in. broad; colour salmon-buff ontside, the inside being a deeper shade of salmon. Terminal bud. Two First-Class Certificates. Plants, 7s. 6d.

1057. EDIE PAYNE (large single)—Deep rose, lined white. 3\forall ft. 2s.

1058. ELLA PICKERING (small single)—Rosy terra-cotta and yellow; very pretty even flower. 23 ft. 2s.

1059. ELLEN SMALES (spidery decorative single)—Large pink-shaded white. This is very showy and effective for table decoration, either single flowers or sprays. 4 ft. 2s.

1060. EVELYN FOSTER (large single)—Rose, shaded white; a beautiful perfect single. 33 ft. 2s.

1061. E. A. KIMBALL-Crimson and old gold; incurved Japanese. 2s. 6d.

1062. ELTHORNE BEAUTY (Seward)—Bright rose, silvery reverse, a very distinct and pleasing colour that will give tone to the exhibition board; easy grower. Crown bud. 5s.

1063. FRAMFIELD BEAUTY (single)—Deep rich velvety crimson flower of large size. 3z 6d.

1964. GENERAL MAURIC (In..)—Medium-sized flower of soft primrose colour, with a deep yellow centre. First-Class Certificate, Ediuburgh. 5s.

1065. G. J. WARREN—A most lovely canary yellow sport from Mdme. Carnot. This being the exact counterpart of the very best 'Mum in existence, viz., Mdme. Carnot, it needs but little description; but I must here mention the easiest way to grow these two is to take the shoots whem 2 or 3 in. long, after they have made the first break, say end of May or June, root them in small pots, and re-pot into 6-in. pots, allow them to make one break; some of the best exhibition flowers will eventually be grown this way. I mention this in this particular instance because this being rather a long price, every one will be anxions to obtain the best results; but, as I have but one stock plant, and that had but two flowers, it has not been sufficient to gain a reprificate. 21s. each, to be sent out in small pots in strict rotation, and not guaranteed till April. This sport originated at Balcombe Place Gardens, Sussex, and is named after the fortunate gardener.

1066. GEORGE BLACKBURN (Jap.)—Very large, full and deep flower, immense long and indulated florets; colour a lovely deep golden yellow, outer petals slightly shaded rosy-purple. This will prove to be of exceptional merit; good grower. Second crown bud. Plants, 5s.

1067, GLADYS FOSTER (small single)—White with yellow dise; very free; best not disbudded. 2½ ft. 2s.

1068. GEM OF EARLSWOOD (Anemous pompon)—Clear citron sushion, which is very even and bold, with rosy-blush guard florets; one of the very best. This is best on the third crown, or terminal, and is lovely in sprays, as it is very free. Has been awarded two First-Class Certificates. 2s. 6d.

1069. G. BUETTNER—Another introduction from America, and one full of promise; pure white, of fine form; eapital dwarf habit. Plants, 3s. 6d.; euttings, 2s. 6d.

1070. GOVERNOR MATTHEWS (American)—Large blooms of a pearl pink, with a finish like satin; a very promising variety. Plants, 2s. 6d.; cuttings, 1s. 6d.

1071. GEO. H. KERSLAKE (Jap.)—Large flower, long florets; colour white, heavily suffused pink; another grand introduction from the colonies. 5s.

1072. GEORGE SEWARD (Seward)—Dark orange, softened by lines and shadings of reddisherimson; long, broad, drooping florets, incurving at points; strong healthy grower; stop April 5s. each.

1073. GOLDFINDER (Seward)—Soft primrose yellow; narrow interlacing florets; very compact full flower; strong grower; stop in March. 5s.

1074. GLARING (Jap. Ref.)—Bright claret-crimson—new and distinct colour; a very large flower of extra fine form and broad petals. 5 ft. Early terminal buds. Plants, 7s. 6d.

1075. GOLDEN NUGGET—This will be found quite an acquisition in form and colour; a true incurved bloom of large size and great substance; the florets are broad and blunt, and of the richest golden yellow; good dwarf habit. Crown bnd. Plants, 7s. 6d.

1076. H. H. ASQUITH (Jap. Ref.)—Lovely rosy amaranth with light reverse; the long drooping florets streaked and tipped with white, centre gold; a very pretty flower. Crown bad. Plants, 5s.

1077. IALENE (Ref. Jap.) - Rosy violet, 1s. 6d.

1078. INVINCIBLE (Jap.)-A very large white; good form, 1s. 6d.

1079. IDEALTY (Iuc.)-Pearly white, tiuted pink; good useful variety. 1s. 6d.

1080. INDIANA (America)—An immense bloom of globular form, clear bright pink; a very promising variety. Plants, 2s. 6d.; enttings, 1s. 6d.

1081. IN MEMORIAM—A very handsome Japanese, raised last year; rich ehestnut, lightened with stripes of gold; long dropping florets of medium width, full deep flower; extra fine. Crown bnd. 7s. 6d. each.

1082. JULIA SCARAMANGA (Jap. Ref.)—A rosy bronze Mons. Chenon de Leche; all who have seen that grand variety at its best must naturally have been struck with its beauty, so they will with this. Two were exhibited in the Gold Medal Championship class for 24, and one in the 12 Japs. which took the N.C.S. Jubilee Medal for best stand in Show. It also received the N.C.S. Certificate. Plants in spring, 7s. 6d.

1083. J. E. LAGER-Clear yellow, reminding one of *Peter the Great*. Blooms large and full, and being slightly hairy have a very soft and charming appearance. Should not be missed. Crown bnd. Good culture. Plants, 2s. 6d.; cuttings, 1s. 6d.

1084. JOSEPH BROOKES (Seward)—Rich orange, shaded crimson-searlet; an immense flower, very long drooping and slightly twisted florets. One of the best of the season. 5s.

1085. JOHN NEVILLE (Seward)—Rich crimson-carmine, reverse deep old gold; long florets, which are twisted and drooping; sturdy grower; stop in March and take second bud.

1086. JAMES MOIR (Jap. Inc.)—Florets of medium width, loosely incurving, making up a full and handsome flower of excellent form; eclour bright golden-yellow; a decided acquisition. 4 to 5 ft. Crown bud. Plants, 7s. 6d.

1087. KING OF BUFFS (Jap. Ref.)—This variety produces blooms of the very largest size, long spreading florets making up a flower of fine form and substance; colour a lovely golden salmon-huff. Crown bud. Plauts, 7s. 6d.

1088. LADY HANHAM—Golden rosy-cerise; sport from Vivian Morel. This is one of the most fascinating colours among Chrysanthemums, having slight shades of gold, old rose, ochre, and eream, and is one of the softest and prettiest shades by gaslight of any known variety. Good plants in February. 5s.

1089. LORD JUSTICE LOPES (Jap. Inc.)—A beautiful silvery pearl-pink or salmon-blush. The drooping florets of this graud new seedling are 8 in. in length, the centre inenrying very similar to Viscountess Hambledon, a very sturdy grower. 4 to 5 ft high. Comes good on first erowns. Good for 6-in. pots. 5s.

1090. LADY ISABEL (Jap. Inc.)—Lovely clear lavender blush. A large and massive flower, with very broad, smooth, waxy petals, building np into a perfect globe. Winner of the Veitch Memorial Medal and £5 as the best revelry at the N.C.S. Great Jubilee Exhibiton. Only two plants of this variety were grown in pots and from these were ent the six flowers. The above is the raiser's description. Buds third week in August. 7s. 6d.

1091. LENAWEE-Light pink, immense flower. 2s. 6d.

1092. LIBERTY (Jap.)-Golden-yellow; a grand flower. 2s.

1 93. LORD MAYOR (Jap.)—Deep erimson with golden reverse; an immense flower of true Japanese form; drooping florets. Crown bnd. Plants, 5:.

1034. LIGHTNESS (large single)—White, with rosy shadings; the end of petals turn down, giving the flower a very pretty, graceful appearance.  $3\frac{1}{2}$  ft. 2s.

1095. MAGENTA (small single)-Pretty magenta, with silvery centre round disc. 4 ft. 2s.

1096. MISS WOLSELEY (large single)—Deep magenta; very large flower. 3 ft. 2s.

1097. MURIEL FOSTER (large single)—Deep terra-eotta, with yellow eentre; one of the dwarfest, largest, and most handsome of any known singles. 2 ft. 2s. 6d.

1098. MIDNIGHT (Jap.)--Crimson lake, hairy variety. 2s.

1099. MISS ANNE GAUNT—Cross between Sunflower and G. W. Childs. A Japanese of great refinement; of the richest and purest golden yellow, with a slight tinge of velvety erimson on the edge of petals, making it very distinct; the formation of the flower is that of Sunflower, but broader florets; excellent grower; of fine habit; should be taken on second crown bud. This will become a standard variety. Plants, 5s.

1100. MISS MORLEY (Ref. Jap.)—A gem for cutting and decorative purposes; colour pure white, centre pale primrose; very long broad that petals; full flower; dwarf and stordy habit, being only 2 ft, in height. This is an attractive variety. Plants, 3s. 6d.

1101. MISS ALICE ROBERTSON—Clear primrose-yellow; sport from White Christine. 9d.

1102. MELINA DUCHANEL—Large bloom of a clear bright pink; the florets are broad, incurving at the tips; of good substance. An extra fine variety. Plants, 3s.; cuttings, 2s.

1103. MARSIA JONES (Jap. Anem.)—A pure white flower of the largest size when well grown; long spreading gnard florets and high centre; a great improvement on existing varieties in this section. Dwarf habit. Crown bnd. Plants, 3s. 6d.

1104. MRS. JOSEPH THOMPSON—Another large and handsome white. Florets of good substance, incurving and twisting into a deep bloom. Top in April. First-rate habit. Crown bud about 20th August. Award of Merit. 1s.

1105. MRS. G. W. PALMER (Dockerill)—This is a bronze sport from the well-known variety Mrs. C. H. Payne. In this sport the objectionable colonr, which often makes the parent appear coarse, is overcome, and we have an enormous bronze variety quite indispensable to the exhibitor. Stop in April and take second crown. 6s.

1106. SNOWDON (Nathan Smith) — An immense very pure white, with long straight florets, resembling an enlarged Avalanche; a back row flower of splendid proportious; easy grower; coming well on second crown. 6s.

1107. MRS. S C. PROBIN (Nathan Smith)—(Inc. Jap.)—In way of Mrs. II. Weeks, but florets are very smooth and of great substance; colonr a clear pink; silvery reverse; good grower; extra fine: Crown bud. 7s. 6d.

1108. MRS. F. A. BEVAN (Nathan Smith)—Flesh pink; a very beautiful Japanese, with long tapering and drooping florets; a very deep and large handsome variety. Crown bud. 7s. 6d.

1109. MRS. BLAKE (Jap.)—"eedling from Viscountess Hambledon, of enormous size and plenty of substauec; a magnificent flower, with 10 ng twisted florets of the purest white; one of the grandest whites in existence. Crown bnd. Plants, 5s.

1110. MRS. HUGH FENWICK (Jap. Ref.)—Colour a beautiful pale piuk; long drooping florets of medium width, quite full to the centre; building up a flower of great depth and substance. Terminal bud. 4 to 5 ft. Plants 5s.

- 1111. MRS. J. BEGGS (Jap. Inc.)—One of the finest novelties of the season; the long, broad, twisted florets are of a delicate pink colour; lighter in centre and of fine substance, making up a massive exhibition flower, 9 in. in diameter and 6 in. in depth. Crown bud. Plants, 5s.
- 1112. MRS. ELLEN NEWBALD—Colour a lovely soft canary yellow, with broad reflexing petals; a very promising flower for decoration and market purposes. Good habit. Awarded First-Class Certificate. Plants, 2s. 6d.
- 1113. MR. J. GOODYER (Jap.)—Colour buff yellow, shaded rose, reverse bronze; petals broad and long, incurving at tip3, full deep flower, dwarf sturdy grower; good habit; fine for decorative purposes. Second crown bud. Plants, 3s. 6d.
- 1114. MR. F. BREWER or Yellow Viscountess Hambledon (Jap. Inc.)—A yellow seedling from Viscountess Hambledon, with broader petals of great substance and of a buttery yellow with lighter reverse; a grand exhibition flower requiring same treatment as its parent. Dwarf habit. Plants, 7s. 6d.
  - 1115. NEW YORK (Jap.)-White; a very full flower, good for exhibition. 2s. 6d.
- 1116. PICTURATUM—Golden yellow, beautifully striped and shaded red, quite a novel and attractive colour; invaluable for cut flowers and decorative purposes. Plants, 2s. 6d.
  - 1117. PORCELAIN-Blusb pink, very beautiful. 2s.
- 1118. PRINCESS MAUD (small single)—Pure yellow, stiff stems; a beauty when left in sprays. 21 ft. 2s.
- 1119. PONDEROSUM (Jap. Inc.)—This is one of the most massive incurved Japanese varieties ever raised; the colour is a lovely pearly-white, with delicate pink base; the florets are of medium width and regularly incurve, the hloom measuring 10 to 12 iu. in diameter, and of great depth. Terminal bud. 6 ft. Plants, 7s. 6d.
- 1120. RED WARRIOR (American) Rich and bright chestnut red, reminding one of W. W. Coles, but the florets are longer and more drooping. The blooms are larger, and much more handsome. Plants, 3s. 6d.; cuttings, 2s. 6d.
- 1121. RUTH ELLIS—A lovely blush white, of the largest size; in form a magnificent specimen of the highest type of the Japanese incurved. Good robust habit. Plants, 2s. 6d.; cuttings, 2s.
- 1122. ROBERT OWEN, JUNR. (Jap. Inc.)—A seedling from Robert Owen, of immense size; the colour is yellow and bronze, of a very rich shade; petals are long, hooked, and of great substance; same hahit as parent, and requires same treatment. Plants, 7s. 6d.
- 1123. ROYAL STANDARD (Jap. Ref.)—A very handsome flower of the deepest crimson imaginable; long spreading florets of good substance and form, one of the finest Japanese ever raised, the blooms measuring 10 to 12 in. in diameter. First-Class Certificate. Crown bud. Plants, 10s. 6d.
- 1124. ROSE OWEN—A beautiful clear rose-pink, the petals being edged with white, more especially towards the centre; a globular bloom of large size, and true incurved type requiring little dressing; a decided acquisition both in form and colour. Awarded First-Class Certificate. 4 ft. Terminal bnd. Plants, 5s.
- 1125. ROBERT BURNS (Jap. Anem.)—Another valuable addition to this class, the drooping guard florets being of a delicate blush colour, with high centre of a creamy yellow; a good full flower. Crown bnd. Plants, 3s. 6d.
  - 1126. SUNCLAD—Golden yellow, in style of H. L. Sunderbruch. 2s.
  - 1127. STRESSA (Jap.)-Golden yellow; a grand flower. 1s.
- 1128. SIR JOHN WATSON (Jap.)—White, changing to pink with age; the petals are very stout, twisted, and intermingling one with another; a magnificent flower; strong erect habit. 5 ft. Crown bud. Plants, 5s.
- 1129. TRAFALGAR.--Decorative variety; very dark maroou, almost black when first opening, and the shape and colour of Zulu Cactus Dahlia, only smaller; a sturdy bushy variety, only 1 ft. to 18 in. high; one of the best dwarf varieties for small pots for market or facing groups ever introduced; mid-season. In February. 2s. 6d.
- 1130. TESSA SHALDERS (Inc. Jap.)—A massive and high-built flower of the largest size, broad cupping petals which incurve to centre, very full and globular; colour white, suffused rosy purple; very distinct; good grower. Second crown bud. Plants, 5s.

1131. VELMAR (Inc. Jap.)-Rose-carmine. 2s.

1132. VIOLESCENT-White, shaded lilae; extra fine. 2s.

1133. VICAR OF BRAY (Jap.)—Blooms of great substance and heavy build; colour bright crimson with bronzy buff and orange shadings and golden reverse; the florets are beautifully interlaced, making up a very handsome flower of great promise. Awarded First-Class Certificate. Crown bud. Plants, 5s.

1134. WARLEY PICKERING (large single)—Crimson maroon, with white dots round the eye, very large handsome flower.  $4\frac{1}{2}$  ft. 2s. 6d.

1135. WINIFRED HULL (single)—Deep crimson; very large, beautiful flower. 4 ft. In February. 2s.

1136. WESTERN KING—A superb new incurved Japanese of the purest white; the florets, which are of splendid substance, are long and beautifully finished to a lapering point; the lower florets slightly fall, as in the old variety Puritan; the blooms are both deep and massive, and are produced on stiff footstalks; habit and foliage good. The finest pure white in existence 5s.; three for 12s. 6d.

1137. WILLIAM PAYNE (Fim Pom.)—Bronzy orange. This is a very sturdy bushy grower, only 18 in. to 2 ft. high; a gem for pot work, as every small flower comes double. In February. 2s.

1138. WHITE EMPEROR-Sport from Emperor of China. 9d.

1139. YANOMA—Pure white; a very promising variety. 2s.

## \*\* CHRYSANTHEMUMS. \*\*

CANNELL & SONS' Stock is the largest and completest in existence, and in the finest possible condition; will certainly give satisfaction in all parts of the world. As a proof they append the following:—

#### Unknown Correspondent's opinion of our Establishment.

We are sure all who have any love for the garden if thoy had the least idea of our character and position, stock and facilities, would be glad of full particulars. We have for nearly forty years been wholly engaged in supplying the best gardens, all over the world, with all that is wanted. (See our list of Patrons, commencing with Her Majesty the Queen.) Our motto is, "Come and See." All who have come say like the correspondent, writing in the Bromley Telegraph—"Messrs. Cannells' Floral Paradise." After filling a column and a quarter with descriptions of our establishments, he says:—"I finished my tour of the Home of Horticulture, and to say I enjoyed it is but a poor phrase to use. It is expressive, however, and as no description can do justice to the loveliness of the place, or variety of flora, I commend all who can to visit Messrs. Cannell & Sons. One thing they are sure to receive—courtesy from Mr. Cannell and his sons and the many gifted foremen."

## Praise from Abroad.

Dr. Thos. C. Blanchard, Calle Doctor, Liuares, Prov. de Jaen, Spain, 24th August, 1895.

I am much pleased with all you have sent me for many years. I highly appreciate your grand house, and will thank you to send on as usual the enclosed order.

# NEW CHRYSANTHEMUMS

We were awarded the only Gold Medal

for an Honorary Exhibit in 1895.

There are many we have seen and examined minutely — nearly every one that will be sent out — some are good, and perhaps half-a-dozen will become standard kinds.

The following wise remarks are evidently the result of long and close experience:—

We were awarded the only Gold Medal

for an Honorary Exhibit in 1895.

Mr. Molyneux, lecturing on Chrysanthemums at Beckenham, said—"He warned beginners as to their selection of varieties, especially new ones, and new firms recommending so many fresh kinds that we never hear of afterwards. All should be on the alert, choosing those who are careful in selection and in supplying meritorions varieties."

I have frequently heard Mr. Shea make the same remarks: nevertheless, there is such a rivalry amongst the trade, that amateur raisers often ask as much as £50 for a new kind. This we feel is far too high, and must ultimately end like the Australian banks, so we are content with our own raising, purchasing others by the dozen or fifty from the trade, which we do perhaps more than any other firm. We send out what we feel certain will become favourities, such as E. Molyneux, Avalanche, and Sunflower, and we never grow them to an enormous size, but fairly, three flowers on a plant, and all must be short, thick-set habit, and bloom coming easily, if not they are thrown away. Several who have bought at high prices wish they could afford to adopt this plan.

## CALVAT'S NOVELTIES OF 1896.

- 869. BARON AD. DE ROTHSCHILD (Jap.)—Immense pure creamy white, with long petals. 2s.
  - 870. BELLE DES GORDES (Inc. Jap.)-Brilliant rosy red.
- 871. CALVAT'S AUSTRALIAN GOLD (Jap.)—Enormous clear canary yellow. First-Class Certificate, N.C.S. 1s. 6d.
  - 872. CAPT. L. CHAURÉ (Inc. Jap )-Yellow chamois.
  - 873. DOCTEUR DUVIARD (Inc. Jap.)-Lilac, with paler reverse.
  - 874. FLEUR GRENOBLOISE (Jap.)-Large flower, silvery white, tinted lilac.
- 875. LE CHARTREUX (Jap.)—Immense flower, manve with paler reverse, petals tipped yellow.
  - 876. L'EMINDRA-Creamy white, long florets.
- 877. MADAME ESCHENAUER (Inc. Jap.)-In way of Mrs. C. H. Payne; lilae with silver reverse.
- 878. MADAME GUSTAVE HENRY (Inc. Jap.)—Pure white, very strong grower. Award of Merit, R.H.S.; First-Class Certificate, N.C.S. 2s.
  - 879. MADAME J. CHAURÉ-Crimson red, with golden reverse.
  - 880. MADAME J. BERNARD-Golden yellow, long petals.
  - 881. MADAME J. SMEERS-Pure white, rather early.
  - 882. MADAME L. BOURGETTE (Jap.) Enormous brilliant rose colour, vigorous grower.
  - 883. MADAME MAILFAIT (Inc. variety)—Dark violet, paler reverse.
  - 884. MADAME MEEUS DE PROLI -Large Japanese of the purest white, very long petals.

885. MADAME R. GRENIER (Inc. Jap.)-Pure white, petals extremely large.

886. MRS. J. LEWIS (Ref. Jap.)—Pure white, very early. First-Class Certificate, N.C.S.; Award of Mcrit, R.H.S. 2s.

887. MA PERFECTION (Inc. Jap.)—P ure white, very dwarf grower. First-Class Certificate, N.C.S. 2s.

888. M. A. CHARMET-Dark violet with paler reverse, tubular petals.

889. M. ALFRED RECOURA (Inc. Jap.) - Bronzy-yellow.

890. M. DELAMOTTE (Inc. Jap.)—Deep yellow.

- 891. M. DESIRÉ BOURDOIS (Inc. Jap )-Crimson red, with golden reverse.
- 892. M. EDOUARD ANDRÉ (Jap.) Large old rose colour, very large petals.

893. M. E. ROSETTE (Jap.)-Large long petals, rather early.

- 894. M. HOSTE (Ref. Jap.)—Fnormous flower; white, tinted rose and yellow. First Class Certificate, N.C.S. 2s.
- 895. M. VILLENEUVE-BUTEL (Inc. Jap.)-Violet, with paler reverse; a rather late variety.

895. MONT ST. EYNARD (Inc.)—Golden yellow, large globular flower.

997. PERLE DAUPHINOISE (Inc.)—Golden yellow, petals regularly incurving.

898. RACHAIS (Inc. Jap.)-Colour old rose, golden reverse.

899. REVE D'OR (Inc. Jap.)—Bright canary yellow.

900. SOUVENIR DE MA SŒUR (Inc. Jap.)—Lilac colour, reverse pale mauve.

901. SURPASSE GAMBETTA (Jap.)-Immense; colonr brick red.

902. VICOMTE ROGER DE CHÉZELLES-Yellow, striped red, long petals.

Those not priced 1s. 6d. each.

## NEW VARIETIES OF 1896,

Sent out by H. CANNELL & SONS and proved to be good.

903. A. H. WOOD (Jap.)—Λ beautiful yellow sport from *Primrose League*, having a much broader petal than its parent, and constitutionally stronger; has been much admired. Crown buds. 1s. 6d.

904. AUSTRALIE (Jap.)—Producing massive well-built flowers, beating the record in size of blooms. They come of enormous dimensions, and of a light rosy amaranth, with a soft silvery reverse. Crown bud. 1s. 6d. Four First-Class Certificates.

905. C. J. WHITTINGTON (Jap.)—Producing immense bold flowers, broad petals, very rich amaranth, with clear silvery reverse; a grand variety. Crown bnds. 1s. 6d.

906. COL. CURZON (Inc. Jap.)—A seedling from the well-known variety Louise, in every way identical with its parent except colour, which is of a beautiful self-pink shade; fine flowers. Late crown. 1s. 6d.

907. G CARVELL (Jap.)—Flesh colour. of a most pleasing shade; the blooms are large and fine; very distinct; dwarf habit. Crown buds. 2s.

908. JOHN APLIN (Jap.)—A grand flower, and forming into a very refined Etoile de Lyon; colour rosy-pink; very broad florets. Crown bnd 1s. 6d.

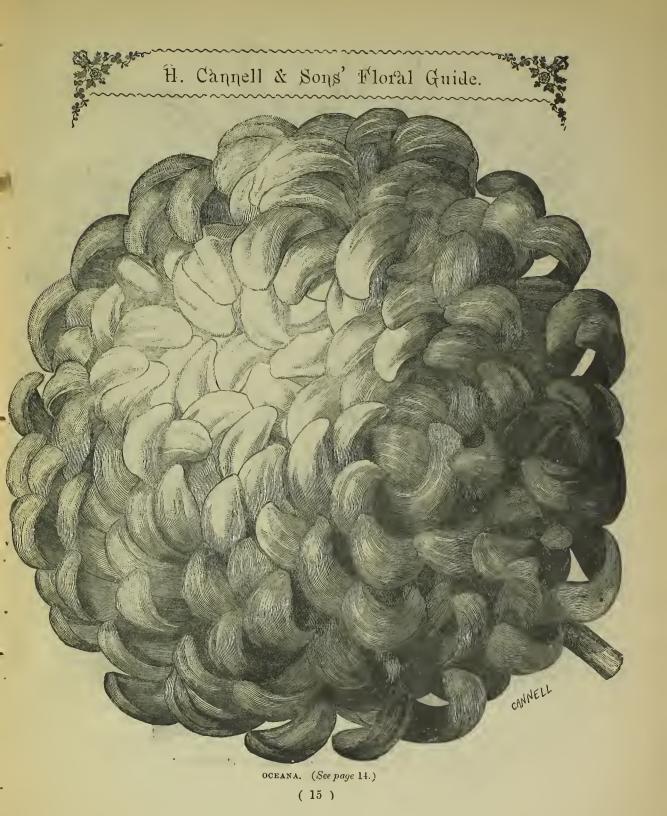

909. MRS. A. H. WOOD (Jap.)—A lovely deep flower, the form of a well-grown Mme. Carnot, the lower half of the flower is white, suffused pink, the centre being pure white; very attractive on the exhibition board. Early terminal. 1s. 6d.

910. OCEANA (Inc. Jap.)—One of the best novelties of the year; very broad incurving florets; beautiful large flowers of a rich golden yellow. We exhibited this variety, and it obtained four First-Class Certificates in one week. N.C.S., R.H.S., Sheffield, and Birmingham. Crown bnd. 2s.

911. PRIDE OF MADFORD (Jap.)—A splendid variety; broad florets incurving towards the centre; rich rosy amaranth, reverse sbaded silver; fine flowers. First-Class Certificate. Strike cuttings early, and secure crown bud. 1s.

912. PRIDE OF SWANLEY—A very large Japanese variety, with long drooping florets, pure white, of mediam width, forming a deep globular flower. First-Class Certificate, N.C.S. 2s.

913. SYDNEY B. LEVICK (Inc. Jap.)—Florets deeply grooved, and of a rich reddish crimson, reverse of petals golden buff; an acquisition. Terminal bud. 1s.

PRIDE OF SWANLEY. (See page 14.)

Electro kindly lent by the Editor of the "Journal of Horticulture."

LADY OPORTO TAIT.

For Description, see page 4.

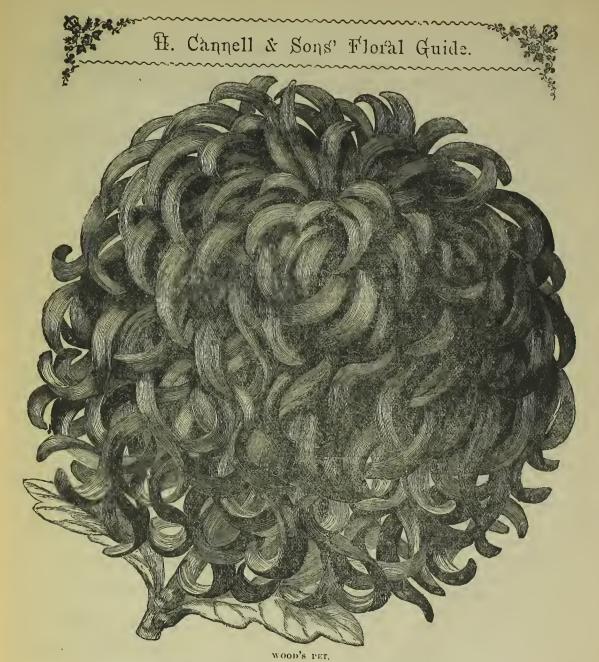

SWANLEY GIANT.

For Description, see page 5.

MRS. J. M. LEWIS.

For Description, see page 6.

914. T. L. TURK (Ref. Japanese)—Bold deep flowers, colour pure golden buff. Crown bud. 1s. 6d.

915. WOOD'S PET (Jap.)—A lovely variety, the result of a cross between Swanley Yellow or Sunflower and Mons. Rernard, the formation of the flower is a fac-simile of Sunflower, but of a beautiful rosy-amaranth in colour, with a silvery reverse; each petal (as per engraving) having a graceful twist makes it most unique. Late crown. 2s.

# NEW MERITORIOUS VARIETIES FROM VARIOUS SOURCES OF 1896.

- 916. ADELAIDE RUSSELL (Dec.)—A distinct sport from Mon. Wm. Holmes, the colour being a beautiful golden-bronze; profuse bloomer, very useful for market and decorative purposes; good habit. Plants, 1s.
- 917. ALICE M. LOVE (Inc. Jap.)—Long-pointed, lovely incurving petals of the purest white. First-Class Certificate. 5s.
- 918. AMY SHEA (Jap.)—Large, broad reflexed petals; colour ruby-red, with a golden reverse; very distinct. 1s. 6d.
- 919. ANNIE TWEED (Single)—Dark velvety maroon, purely single, dwarf branching habit; a good acquisition to the class. 1s.
- 920. A. PAYNE (Inc. Jap.)—Massive flower, with broad incurving petals of good substance inside of petals lovely shade of rose with silvery reverse. 1s. 6d.
- 921. ARONA—Seedling from Vivian Morel. The blooms are large, of a rich yellow, shaded with bronze; the inside of the florets flushed and brightened with carmine. It may be best described as an improved Col. W. B. Smith, but the florets are of greater substance, and the bloom is a much better keeper. One of the best introductions of the season. Comes good from any bnd. Two Certificates, R.H.S. and N.C.S. 2s.
- 922. BARBARA FORBES—White, equal to the Queen of the Earlies, but the florets are of different form, and the blooms are somewhat larger; a lovely variety. First-Class Certificate, N.C.S. 2s.
- 923. BEAUTY OF TRURO (Jap.)—A yellow ground sport from the hairy variety Louis Boehmer, deeply flushed purp'e-bronze. 1s. 6d.
- 924. BELLEM (Inc. Jap.)—Bright pink. incurving petals of fine substance; a massive exhibition flower; one of the best pinks ever raised. Terminal buds. First-Class Certificate. 1s. 6d.
- 925. BONNIE DUNDEE (Inc.)—Orange inside of petals, lined and shaded rosy-bronze without, the back of petals edged yellow; a splendid globular flower, fine substance; the brightest shade of orange in the section; good habit. Terminal buds. First-Class Certificate, N.C.S. and R.H.S. 1s. 6d.
  - 926. CHITO—Clear yellow, full reflexed Japanese. 1s. 6d.
- 927. CECIL C. PRATT (Jap.) Nankeen yellow, lined and tinted soft pink; long twisted petals hooked at points; grand exhibition flower; strong robust grower. Crown buds. 1s. 6d.
- 928. C. E. JEFFCOCK (Jap.)—Very refined; long petals incurving at the tips; colour rich terra-cotta, suffused with crimson, buff reverse. 2s.
- 929. COMMANDANT SCHNERDER (Scented Ref.)—Small reflexed flower, having the same sweet scent as Progne; robust grower, free flowering; light purple amarantb. 9d.
- 930. C. W. RICHARDSON (Jap.)—One of the largest and most beautiful varieties yet introduced; long drooping and twisting petals, twisting and intermingling. 2s.
- 931. DOLLY (Poin.)—A very compact and beautiful variety, useful for exhibition or decoration; pale canary-yellow. 9d.
- 932. DOROTHY GIBSON (Ref)—A deep well-formed flower of the richest golden-yellow; handsome; the best addition made to this class for years; fine sturdy habit. Crown buds. First-Class Certificate at N.C.S. and R.H.S. ls.
- 933. DOROTHY SEWARD (Ref. Jap.)—Very large, full flower, and of great depth; bright terra-cotta red, keeping its colour well to the last. Crown bud. 2s.
- 934. DR. BOND (Ref. Jap.)—A large reflexed flower; a considerable depth; colour bright canary yellow. 1s. 6d.
- 935. DUCHESS OF FIFE (Inc.)—An enormous flower of great depth and of good substance, beautifully shaded petals of the purest white; a back row flower, and a good companion to Chas. II. Curtis. Late crown buds. First-Class Certificate, N.C.S. 1s. 6d.
- 936. EDITH TABOR (Jap.)—Large and handsome, broad drooping florets curled at tips; very fine lemon yellow, quite distinct; strong vigorous habit, medium height, and easy to grow. First-Class Certificates awarded. 2s.

- 937. EMILY SILSBURY (Jap.)—A rival to Malle. Therese Rey, but much easier to grow, and a flower of more substance; pure white, with long drooping and gracefully curling petals; an invaluable exhibition variety, and good for market purpose; good on any bud. First-Class Certificate. 1s.
- 938. EUCHARIS (Single)—Price white as Elaine, as free as a Marguerite and of exquisite shape; the finest yet introduced. 1s.
- 939. EXMOUTH YELLOW (Jap)—Full and deep, outer petals drooping in a charming manner; pure white, delicately shaded clear pink; good habit, easy doer, highly recommended. 1s. 6d.
- 940. FRANK ASHMAN (Inc. Jap.) Magnificent rich golden yellow, shaded and tinted bronze-red; splendid form and substance; the broad petals beautifully incurving, and forming a perfect ball; terminal buds. 1s. 6d.
- 941. GENERAL ROBERTS (Jap.) Red, shaded carmine; enormons flowers, the lower florets of which are tubulated and spatulate, gracefully intermingling; on the crown of flower the florets are broad and flat; one of the largest; early terminal buds. 1s. 6d.
- 942. GENERAL ROCKE (Jap)—Deep amaranth, silvery reverse. There are many of the amaranth shade of colour, but none so pretty and distinct as this; of easy culture. 1s.
- 943. GEORGE HAIGH (Inc.)—A distinct sport from Robert Petfield, and closely resembles that variety in form and habit, but the colour is a lovely carmine-rose, shaded golden bronze; a splendid exhibition flower, will take a foremost position in its class. Crown buds. First-Class Certificate at N.C.S. 2s. 6d.
- 944. G. LANGDON (Jap.)—Large, long and broad petals, slightly curling at the tips; colour lovely canary yellow; a flower of good substance. 2s.
- 945. HAROLD WELLS (Inc.)—A sport from Sir T. Lawrence, lovely creamy yellow, broader petals than Golden Empress of India. 2s.
- 946. HELEN OWEN (Jap.)—Orange-yellow, shaded and tinted apricot; very long florets, twisting and intermingling. forming a massive flower; very distinct and beautiful. Crown buds. 1s. 6d.
- 947. HERBERT J. CUTBUSH (Jap.)—A unique flower, with long petals of medium width; colour deep red, heavily striped yellow; useful exhibition variety. 2s.
- 948. H. T. WOODERSON (Jap.)—Massive flower, with long broad petals of thick leathery substance; style of Wm. Tricker, only much larger; colour soft rose, silvery-white reverse. 2s.
  - 949. H. CHEESEMAN (Jap.)—Crimson, tipped gold; making a grand flower. 3s.
- 950. H. WOODMAN (Jap.)—Another of the best, with long twisting and enrling petals, incurving at the ends; very large and deep flower; colour rich bronze, beautifully overlaid with red. 2s.
- 951. JAS. BIDENCOPE (Jup.)—Rosy amaranth, silvery reverse; broad florets, long and slightly twisted; large and handsome; terminal buds. 1s. 6d.
- 952. J. LYNE, JUNR. (Inc.)—An exhibition bloom of perfect form, and petals of the truest type; colonr a pleasing shude of light golden-bronze. 1s. 6d.
- 953. JOHN SEWARD (Jap.)—Au immense flower, 9 inches across; bright canary yellow; constant easy grower. 2s. 6d.
- 954. J. PEARSE (Inc.)—Large flower of perfect shape; a distinct shade of light rose; fine exhibition variety. 2s.
- 955. KATE WILLIAMS (Single)—A lovely rich golden-yellow, perfect in form and size; a grand bloom for exhibition; sweet-scented First-Class Certificate. 1s.
- 956. KHAMA (Jap.)—Carmine-red, golden-bronze reverse; long petals of medium width, turning over and showing the reverse; full deep flower; dwarf and vigorous habit. Crown buds. 1s. 6d. 957. LADY BYRON (Jap.)—Pure ivory-white, shaded green in centre until fully expanded;
- an exceedingly handsome variety. 2s.

  958. LADY ESTHER SMITH (Inc. Jap.)—Pure ivory white, broad incurving florets, of good substance, grand and massive blooms; will make one of the best whites, either in October or
- November, au excellent keeper; sturdy habit. Awarded Certificates. 1s. 6d.

  959. LADY KENNAWAY (Oct. Flow.)—Beautiful pink, somewhat similar to the colour seen in Baroness Rothschild rose; blooms are deep, and florets of medium width. 1s.

(19)

- LADY RIDGWAY (Inc. Jap.)-Lovely salmon-buff, rosy red inside of petals; large deep solid flower, massive build, beautifully incurving, petals tipped gold; splendid exhibition variety; terminal buds. 1s. 6d.
- 961. LAGO MAGGIORE (Jap.)-The grandest and richest yellow flower yet introduced. In style the bloom resembles Sanftower, but in size and substance au immense advance upon that well-known variety. All who have seen this glorious flower pronounce it to be the most distinct acquisition of this colour yet brought into commerce; a most telling exhibition flower. First-Class Certificate. 2s. 6d.
- 962. MAGGIE SHEA (Ref. Jap.)-A very large flower, with broad petals slightly curling at the tips; colour rich clear yellow, with a light primrose reverse; a valuable exhibition variety.
- 963. MARJORIE KINDER (Inc. Jap.) Large, broad leathery incurving petals; colour rich yellow, lighter reverse. 1s. 6d.
- 964. MATTHEW HODGSON (Jap.)-Bright crimson-red; a beautiful distinct and high-class flower, of medium size; good grower; very promising. Commended. 1s. 6d.
- 965. MILANO (Jap.)-A very large reflexed flower, with broad petals of great length; colour cherry-carmiuc with bright bronze reverse. 1s. 6d.
  - 966. MODESTO-Rich yellow; one of the best yet raised First-Class Certificate, N.C.S. 3s.
- 967. MISS CLARA WALKER (Jap.)-Beautifully ebaste and refined, with extremely loug tubular petals; large spreading form; colour purest white. 1s. 6d.
- 968. MISS FLORENCE LUNN (Ref. Jap.)-A true reflexed flower, and probably the most refined and distinct of its type; an important addition to this limited class; light amarauth; full deep flower. 1s.
- 969. MISS L. J. MATTES (Jap.)-Very handsome flowers, petals very long, creet, and tubular; inner surface of florets rich rosy-bronze, reverse being paler; babit dwarf; of easy culture.
- 970. MISS MARY GODFREY-Blooms are very deep and of beautiful form, of a lovely silvery-pink, edges being several shades darker; a distinct and lovely variety; habit strong and robust. 2s.
- 971. MISS MURIEL GOSCHEN (Jap.)-Large dense flower, with long earling and drooping refined petals, building up a bloom of good substance and depth; colour soft yellow. 1s. 6d.
- 972. MISS PHYLLIS FOWLER (Inc.)—Large perfect flower of exquisite form and great depth, petals beautifully incurving, and pointed in the Princess style; colour primrose-yellow; late crown binds; a companion to Chas. H. Curtis. 2s. 6d.
- 973. MR. A. G. HUBBUCK-A magnificent flower with innumerable reflexed petals; colour bright shade of ehestnut-red, with gold reverse; very distinct and telling colonr. This is a bloom of large proportious, and will be invaluable to all exhibitions. 2s.
- 974. MR. B. HOOKE (Ref.) —A good addition to this class; beautiful chestnut-red, florets tipped gold; a lovely colour and a decided acquisition; good habit. Crown buds. 1s.
- 975. MR. G. HOLLINGSWORTH (Jap)-A very distinct flower of medium size, long flat petals notebed at the tips; colour soft shade of primrose-yellow. 2s.
- 976. MR. P. PURNELL (Inc. Jap.)-Charming compact flower, with shaving-like petals of nuch substance, pleasingly curling, and forming a most unique bloom; a decided acquisition to this section; colour inside violet-rose with a silvery white reverse. 1s. 6d.
- MR. W. LAYCOCK (Jap.)-A charming variety of great merit; large and of fine form, florets long; very pale yellow but not of a creamy-white; plants only. 1s. 6d.
- 978. MRS. A. E. STUBBS (Single) The most perfect form of a pure white exhibition single variety yet introduced; a very chaste flower, invaluable for decorative purposes. Two First-Class Certificates. 1s. 6d.
- 979. MRS. ARMISTEAD (Jap.)-White, striped and flushed rosy-pink; long narrow florets full exhibition flower; a charming variety, baving a delicate perfume of violets. Crown bud. 1s. 6d.
  - 980. MRS. BRISCOE-IRONSIDE—Flesh pink, incurving, dwarf; a handsome variety. 2s.
- 981. MRS. CHAS. BLICK (Jap.)—A lovely pure white of fine habit; graceful long florets; a grand acquisition. Awarded several Certificates. Plants ready in March. 1s. 6d.
- 982. MRS. C. ORCHARD (Inc. Jap.)-Another distinct flower with broad incurving petals slightly hoisting; colour bright sulphur yellow. 2s. First-Class Certificate, N.C.S.

- 983. MRS. COTESWORTH BOND (Ref. Jap.)—A distinct flower of large proportious; colour soft pink, shaded white; a very pleasing variety. 1s. 6d.
- 984. MRS. E. E. COOKSON (Jap.)—Deep crimson, flushed yellow on reverse of petal: florets very long, flat, and erect; makes a full deep flower; very large; good habit; fine grower. 1s.
- 985. MRS. G. CARPENTER (Jap.)—A lovely variety of a rosy-manyc colour; the florets twist and intermingle, showing a silvery reverse; very fine. Crown bnd. 1s. Gd.
- 986. MRS. G. GOVER (Jap.)—Large, with long and drooping petals slightly curling at the tips; colour rich crimson, bronze reverse; fine exhibition bloom. 1s. 6d.
- 987. MRS. G. H. SMART (Inc. Jap.)—Large flower of the truest form; colour golden buff, inside of petals suffused red. 1s. 6d.
- 988. MRS. HARRY CHIESMAN (Inc. Jap.)—Chaste flower, with long and broad incurving petals, building up a flower of large proportions; colour pure white, slightly tinted green. 1s. 6d.
- 989. MRS. HERMANN KLOSS (Jap.)—As large as *Etoile de Lyon*, with similar broad, flat florets and high build; colour dark orange, flushed chestnut-red; should be grown strong and taken on second crown, as it is apt to come coarse. 2s.
- 990. MRS. HUME-LONG (Jap.)—An immense bloom, yet free from coarseness; florets very long, recurving and twisting from the centre in a most even manner; deep rose, lighter reverse; distinct. 2s.
- 991. MRS. H. WEEKS (Jap.)—Beautiful pearly-white, shaded light pink; undoubtedly the largest as well as the handsomest flower yet raised. 2s.
  - 992. MRS. JOHN FORBES (Oct. Flow.)-White; a lovely and most valuable variety. 1s. 6d
- 993. MRS. JOHN SHRIMPTON (Jap.)—Perfectly distinct from any other variety; very constant, every flower coming good; golden buff, shaded and striped crimson-red; very telling colour. Crown bud. 2s. 6d.
- 994. MRS. PINKNEY (Iuc. Jap.)—Massive flowers, pctals very hroad and long, rich dcep yellow, best dcscribed as a great improvement upon The Tribune; good habit; strong grower. Late crown bud. 1s. 6d.
- 995. MRS. RICHARD JONES (Jap.)—A very large spreading flower, with long reflexed petals incurving at the tips; colour of the purest white. This is one of the most promising white flowers of the season, and all growers should seenre it. 1s. 6d.
- 996. OLGA TEICHMAN (Jap.)—Novel, reflexed; pointed petals of medium width; colour rosy-mauve; a very distinct shade. 2s. 6d.
- 997. OLIVE OCLEE (Inc. Jap.)—One of the best incurved flowers of the truest form; large and deep flower, with broad petals of great substance; colour rich bronze, shaded yellow. Certificated at the R.H.S. and N.C.S. 1s. 6d.
- 998. PRIDE OF EXMOUTH—Will take a high place on the exhibition stand; blooms full and deep; colour from early buds pure white, later hads white, delicately shaded clear pink; good habit; of easy culture; one of the best. First-Class Certificate, N.C.S. and R.H.S. 2s. 6d.
- 999. PRIDE OF MAIDENHEAD (Ref. Jap.)—A magnificent flower; ivory white with lemon centre, long spreading florets of medium width; of great depth; grand exhibition variety. Crown buds. 1s. 6d.
- 1000. PRINCESS ENA (Hirsute)—This splendid novelty originated at the Royal Gardens, Windsor, and is a sport from *Hairy Wonder*; the *Princess* has all the good qualities of the parent, and a great advance, owing to its more pleasing colour—clear warm rosy pink; a grand acquisition. Award of Merit. 3s.
- 1001. PRINCESS MAUD (Inc. Jap.)—White, shaded pink; gracefully incurving florets; very solid, and forming a splendid flower; strong and healthy. Crown or terminals. 1s. 6d.
- 1002. QUEEN OF THE EARLIES (Oct. Flow.)—Specially recommended for decorative purposes or cut flowers for market. A capital keeper and of good substance; of the purest white; an advance. Plants only 1s. 6d.
- 1003. REV. S. G. SCOTT (Jap.)—Large flower, with very long petals of medium width, enrling and incurving at the tips, making a hloom of large size; colour inside of petals claret-red, with a very deep buff reverse. 1s. 6d.
- 1004. ROBIN ADAIR (Jap. Anem.)—Large fine-shaped flower; grand florets, hlush white, flushed lilac; centre florets lilac pink, shaded yellow. First-Class Certificate at N.C.S. and R.H.S.

1005. SIR T. LAWRENCE (Inc. Jap.)—Pure white, broad petals; a grand exhibition flower, good on either bud. 1s.

1006. SIMPLICITY (Jap.)-Pure white, of splendid form. 2s. 6d.

1007. SUNSTONE (Inc. Jap.)-Straw yellow; a grand flower. 3s.

1008. TAM O' SHANTER (Jap. Anem.)—A lovely rosy lilac, with lighter shadings; guard petals fluted and twisted, the high enshion being edged yellow; good habit. 1s.

1009. VICAR OF EXMOUTH (Inc. Jap.)—Very broad florets; rich crimson amaranth, silvery, reverse; habit stiff and sturdy; handsome and distinct. 1s. 6d.

1010. WALTER OWEN (Jap.)—Reddish crimson, bronze reverse: broad florets, slightly toothed; large full flower; a telling colour; fine habit. Crown or terminals. 1s. 6d.

1011. W. SLOGROVE (Inc. Jap)—Said to be the best deep yellow up to date. First-Class Certificate at R.H.S. and N.C.S. Of easy culture. 1s. 6d.

1612. W. WRIGHT (Ref. Jap.)—Au enormous flower, with long petals of medium width, making a flower of large size; colour bright pink, tinted primrose. 2s. 6d.

1013. YFLLOW ELSIE (Cannell), syn GOLDEN ELSIE (Ref. Dec.)—A true sport from the pretty primrose coloured variety named Elsie. This is equally as useful, only of a decided yellow; very free. First-Class Certificate at N.C.S. 9d.

# BOUTONNIÈRE, ÆSTHETIC, AND SPIDERY CHRYSANTHEMUMS.

Where refinement in decorations is desired these will now take the place of the Poupon and single flowered faricties, and will undoubtedly occupy a position in Chrysanthemums similar to the Cactus-shaped kinds in Dahlias, which have gained such well-merited popularity throughout the world. It is our full conviction that these light, graceful, and yet fantastic shaped Chrysauthemums will attain a prominent position in even a much shorter time, and owing to their lasticg properties when cut, which is a great advantage, they will be eagerly sought after and used by every lady who admires something neat and nice for the decoration of the table. For huttonholes and sprays they are even a worthy rival to the Orchid, both in appearance and keeping qualities; no garden or greenhouse ought to be without them. See opinions of the gardening papers and the Press.

1014. MRS. FILKINS—Of Japanese form, medium-sized flowers prettily cut and notched; very free flowering; a bright golden yellow. Award of Merit, R.H.S.

1015. SOUV. DE MME. G. EYNARD (Dec. Jap.)—A most wonderful arrangement of colours, reddish chestnut tipped golden yellow, tip of each petal is twisted; very attractive and novel.

1016. SILK TWIST-Of a rosy mauve and cream shade, full double flowers; pretty.

1017. ALICE CARTER-Colour reddish brown, tipped with gold; distinct and novel.

1018. CENTAUREA—Deep orange yellow; very dis inct.

1019. MRS. JAS. CARTER-Colour pale yellow, passing to white.

1020. BOUQUETERRE-White, tipped with yellow and rose.

1021. CHEVEUX D'OR-Rich golden yellow.

1022. JITSUJETUI-Silvery pink; very pretty.

1023. KING OF PLUMES-Rich deep yellow, prettily cut and notched. Award of Merit, R.H.S.

1024. WHITE ELKSHORN-Pure white, extra.

1025. COUNTRY OF GOLD-Yellow; very free.

1026. YELLOW SULTAN-Golden yellow; very compact and dwarf

1026A. MIDGET (Jap.)—Smallest and most perfect form of any flower; of lovely refined shape; innumerable small florets; colour white, shaded pink; very free and good grower, and has the most valuable property of flowering profusely all through December. Cuttings, 1s. each; rooted, 1s. 6d.

## THE STANDARD.

CENTAUREA.

Messrs. H. Cannell & Sons. Swanley, whose Kentish White (new), yellow Source d'Or, and magnificent collection of Geraniums, are of the very finest quality.

## \*\* SIMPLY AN ANNOUNCEMENT. \*\*

We are on the best of business relationship and have special terms with all Trade-growers. Our orders for new varieties are already given for large quantities, so that we may have the first early plants, and thus enable us to despatch with our own all new kinds of other raisers in one package; and we further respectfully intimate to all those who wish their orders to he sent in first-class condition, that they should forward their commands as soon as possible after receipt of this New List.

## NEW CHRYSANTHEMUMS.

EED is now being saved in every conntry in the world. It comes up readily, and of course each raiser sees wonderful things in his own, so they are thrust ou to the public. From long experience, seedlings want carefully selecting with practical knowledge, and even then should be well grown and shown the next year, as there may be many little nasty habits to prevent it ever becoming popular. We bave increased our department, built the grandest and best adapted house, 160 feet long by 25 feet wide, and appropriated nearly an additional acre of ground to grow old stools that we had cut down early before flowering, which we have now taken up with large balls of earth, and are giving us valuable, early, and first-rate cuttings that give more than satisfaction. We ouly intend to purchase from the principal growers, who have a knowledge of what is wanted, and of others that can be relied npon. Seedlings are raised as readily as Zonal Pelargoniums, and the world cau be swamped with many that are not nearly so good as our older kinds. When good ones are obtained, they ought to command double what they have hitherto done to make them worth venturing large sums of money. Even some of those that have been enlivated by the greatest experts, in our opinion, will not ho heard of again. We only intend to introduce those that will become standing varieties, like those we have hitherto put in commerce, giving us a great reputation for the best varieties sent out by any firm.

## CHRYSANTHEMUM CUTTINGS.

We have adopted quite a new system for the supply of cuttings, which we are sure will be much more satisfactory to the purchasers, and far more successful than those supplied in the usual way from plants which have stood close together with their long drawn-ap enttings, and often from those not very healthy, whose colours have been strained to the utmost.

We now plant out our stock of young plants first week in May in the open ground, and cut them down the end of September, then lift them with large balls of earth and plant them in our earthstage, close against the glass. They soon begin to throw up quantities of cuttings of a short sturdy nature, quite different to those from exhibition plants, and the difference is such that all growers who have seen our two houses, 100 ft. each, full of these roots, would decide never to grow from the over-worked old stools again.

#### LARGE-FLOWERING INCURVED VARIETIES.

FOR CUT BLOOMS.

Those varieties marked with a (\*) are those that have been exhibited, and were amongst the winning classes at the principal shows throughout England. All those with a (†) are the best for exhibition specimen plants. (a) Raised and sent out by II. C. & Sons.

- ABBOTT'S WHITE Pure white: a great aequisitiou; sure to become a general favourite.
- 2. ARISTINE ANDERSON—Resembles Miss M. Morgan, but an improvement on that variety, being a more decided piuk, and larger blooms.

Established Plants of all Chrysanthemums not priced, 6d. each. Cuttings, purchaser's selection, 2s. per doz., except those priced higher; our selection, ls. 6d.; 10s. per 100. Cuttings of new varieties at a proportionate price.

All are flowered yearly on purpose to keep them true to name. Always a large quantity of Stock Plants ready for propagating or for growing into specimen and flowering plants.

#### JAPANESE CHRYSANTHEMUMS.

SECRETS IN COMPETITION.

Although the Japanese do not require to be made as uniform as if they had been cast in one would like the incurved and recurved, yet they require similar arrangement, so that they each present a regular and pretty form, whatever their natural shape may be. Massiveness and great depth of flower is most appreciated; flat hollow centres and undecided colours should be avoided. No model cau be set up in this section as the one required. Yet, whatever style of twisting, curling, or

recurving best suits the variety, to assist that growth of the flower to develop itself, and when done, it must be such that the eye will cause the tongue to say, "That is pretty; I like that variety. It generally follows, what pleases the public pleases the judges, and that is the secret of success.

340. AMIRAL AVELLAN-Bright dark yellow, broad petals. First-Class Certificate, N.C.S. 1s.

341. AUTUMN TINTS - A desirable variety of a true Japanese type; colour pale yellow, heavily splashed red; greatly admired; should be taken on crown had.

WALTHER — A Japanese variety; the onter florets are quilled at the base, the tube expanding into a flat oblong limb; the outer part of the tube is silvery, reverse silvery flushed with brown; tips snlphur-yellow, the inner ones partly incurved and rosy-manve in colour; a most curious-shaped flower. Crown buds. 1s.

656. GOLDEN DRAGON-Yellow, long tubnlar petals; good exhibition flower.

657. MRS. BEATRICE CARD (Card)—A lovely, neat, pretty, dwarf-growing Japanese variety, not large enough for exhibition; beantiful shape, and brilliant scarlet-cbestnut colour; an English-raised scedling.

#### DECORATIVE VARIETIES.

These are principally for the decoration of the conservatory, the honse, and for cut flower purposes; all are very free flowering, dwarf habits, and decided colours; and where exhibition flowers are not the aim, these are decidedly preferable for general use.

658. BRILLIANT (Owen)—Broad spreading florets, brilliant rich crimson, with a slightly paler reverse; the blooms measure from  $5\frac{1}{2}$  in. Award of Merit, R.H.S. Crown buds. 1s.

659.\*†CHINAMAN, syn. LE CHINOIS-Brilliant violet purple, occasionally streaked silvery white, large flowers. First-Class Certi-

660. COMET-Bronze-red and carmine.

CHRISTMAS YELLOW-Deep yellow, with a hronze stripe; good grower, and will be found as a late flower a great acquisition.

662. DR. MASTERS - Reddish crimson, flat petals, some slightly fluted, full flower; dwarf habit, fine for grouping.

663. ETHEL AMSDEN-Pure pea-green; a sport from V. Morel.

664. FULTON—Bright yellow. 665. GOLDFINDER (Canuell) — Intense golden sport from the well-known white variety, Mrs. Chas. Carey. A grand addition to the late-flowering kinds for cutting.

666. GOLDEN GEM-Bright golden yellow, changing in the centre to a rich apricot tint; recommended as a late variety for cutting.

667. GOLDMINE - Golden apricot. brightest colour yet produced, sword-shaped petals, very profuse bloomer; a grand market and decorative variety, dwarf habit.

668. L'AFRICAINE, syn. GORDON -Deep crimson.

669. M. GARNIER - Orange, shaded

670. MISS CONWAY-Small Japanese, very handsome as a decorative sort. formation of Mdlle. Lacroix, and its long florets are a lovely sbade of soft yellow, white tips; dwarf and free. 1s.

671. MDME. LEMOINE-Magenta.

672. MRS. C. CAREY-The latest white bloom in cultivation.

PRINCESS-Pure ivory white, a grand decorative variety for any purpose where white flowers are required; perpetual flowering from middle of September to November, the head of plants being covered with bloom; fine dwarf habit.

674. PRESIDENT HYDE-Large, full, reflexed Japanese, intense rich yellow. First-Class Certificate.

675. PROFUSION—Golden yellow, shaded apricot, free-flowering variety, a perfect mass of bloom; fine for decoration, cutting, or market; good dwarf hahit.

676. SNOWDRIFT-Wbite, as name denotes, flat petals; a free-flowering late variety.

677. SOURCE D'OR-Orange and gold.

678. THE BRIDE-A splendid purc white incurved, free-flowering; excellent for cutting purposes, and can be recommended as a market

679. WILLIAM STEVENS-Bronze-red, yellow reverse; large. Two First-Class Certifi-

680. YELLOW ETHEL, or NEW YEAR'S DAY (Edwards' variety)-Most valuable for cutting at the shortest and New Year's Days.

wherever exhibited, and awarded First-Class Certificates and Awards of Merit. Of a clear rich yellow, prettily-shaped Japanese flowers. wonderfully free flowering; an indispensable variety for decoration, and, where a quantity of yellow blooms are required early, very effective. Cuttings, per 100, 8s.

#### EARLY-FLOWERING CHRYSANTHEMUMS.

Early-flowering Chrysanthemums are making rapid improvement; we now give them more attention and grow them better. Our house, after the Carnations and Picotees were removed, and during August and September, was really a fine sight. It cannot be said we have nothing but Dahlias in the autumn, for these can be had in abundance; yes, for many continue throwing up flowers after the first lot are cut—so very different to the ordinary November kinds, and for hedding many of the varieties make a grand feature. Mr. Brown, the Superintendent, Hyde Park Gardens, writes us:—" Madame C. Desgrange has again made the most attractive bed in the Gardens this season, and these are fast becoming a most important section of this family, but like all Chrysanthemums they require to be well grown, otherwise they will end in disappointment."

682. AMBROSE THOMAS - Crimson brown; most profuse, and very dwarf.

683. ALICE BUTCHER-A sport from the well-known variety Lyon, red, shaded

orange. Awarded First-Class Certificate. 684. BLUSHING BRIDE—A beautiful hybrid, bright rose-lilac, fading off to a beautiful

685. BRONZE BRIDE-Early-flowering variety; a rosy-bronze sport from Blushing Bride; a welcome addition.

686. CHEV. ANGE. BANDIERA-White

shaded cream, golden centre. 2 ft. 687. DODO — Λ bright yellow, profuse bloomer; dwarf. 1s.

688. EDITH SYRATT-Deep pink, reverse

lighter; most profuse. 689. FIBERTA—Rich canary-yellow; good

habit. 690. FLORRIE PARSONS-Colour

mauve. Height 2 to 3 ft.
691. FLORA, syn. LATE FLORA—Deep

golden yellow. 692. FRÉDERIC MARRONET - Dwarf

stiff habit, orange coloured. 693. FREDERICK PELÉ-Deep crimson-

red, tipped light gold; fine. 694. GENTILESSE-Creamy sulphur, cach

petal tipped soft rosy peach.
695. GOLDEN FLEECE—Clear yellow,

one of the best.

696. GENERAL HAWKES (Jap. Ref.) -Deep rich crimson-claret, silvery reverse, long drooping florets, revolute at the edges; an acquisition. Awarded two First-Class

Certificates by N.C.S. and R.H.S.
697. G. WERMIG, syn. GOLDEN
MADAME DESGRANGE—A sport from the white variety; primrose-yellow. Certificate, N.C.S. First-Class

698. HARVEST HOME (Jap. Ref.) -Rich bronzy-red, incurving tips of gold; a pretty early-flowering show and decorative variety; dwarf habit.

All those not priced, 6d. each.

#### COUNTRY-GROWN PLANTS AND CUTTINGS.

The difference between our country-grown plants and cuttings, and those grown and sold in or near Loudon or other towns, is so manifest that no comparison can be drawn. True, they like soot at their roots, but not to be covered with it, as they must be when grown in such a situation, and, for the want of light, are poor and drawn up; whereas ones are clean, strong, and healthy, and will root in half the time, and make stronger and healthier plants.

When ordering, please quote edition of Catalogue, as the numbers are occasionally revised.

#### OCTOBER FLOWERING VARIETIES.

748. L'AMI COUDERCHET-After eutting off all its flowers, its side shoots break out and produce another lot of nice, useful flowers for cutting. Colour lovely yellow; is really a capital, useful kind.

All those not priced, 6d. each. Cuttings, purchaser's selection, 2s. per dozen; our selection, 1s. 6d. per dozen; 10s. per 100. New varieties in proportion.

CHRYSANTHEMUMS .- Our stock of both old and new varieties is the largest, most complete, and in the finest possible condition, grown expressly for amateurs and professionals to win. As a proof, we are proud to see by the New York Herald that plants supplied by us have again carried off the American great prize, "Gold Medal."

#### SINGLE CHRYSANTHEMUMS.

If we were to print half the extracts from the various horticultural papers, and the letters from those to whom we have sent flowers, including some of the highest titled patrons in the land, they would fill many pages, therefore we are convinced the following will suffice to cause these most highly useful and easily grown flowers to be cultivated in every garden. They are little or no trouble to grow; produce more blooms, last longer in good condition, either cut or nucut, than the doubles. In persistency of petal the single Dahlias bear no comparison, neither do they for real beauty and nse. Further, they have a nice perfume, and for all kinds of decoration will not only add a new charm, but fill our tables with brightness and beauty up to and past Christmas.

SYMONDS 808. "ADMIRAL SIR T. (Canuell)-Large deep yellow. Two First-Class Certificates,

809. AMERICA - Opening blush, shading off to white; large and fine.

849. THE ECHO-A distinct shade of terraeotta; medium-size flowers; dwarf, bushy habit.

Cuttings of new varieties half price

#### CHRYSANTHEMUM (MARGUERITES) PARIS DAISIES.

(Golden and Silver Stars.)

This class is really one of the most valuable for cut flowers; with only ordinary care they can be had in flower all the year. During the winter they are indispensable, and if afterwards planted out they make a splendid bed; if they have a fault at all, it is because they are too easily propagated. They were much admired by all visitors at the Paris Exhibition, and are extensively grown in the French parks as bedding plants. The fact of their never ceasing flowering makes them honsehold flowers everywhere.

- 850. ALICE CROUSSE—Dwarf and very free; one of the best.
- 851. BRANCHING ETOILE D'OR Bright yellow; habit and free blooming are all that can be desired. It is, in our opinion, the most serviceable plant sent out for many years.
- 852. ALMA BRUGGEMANN Flowers single, beautiful clear golden yellow, edged white.
- 853. CORONARIUM FRUTESCENS White; splendid bedder.
- 854. CORONARIUM GRANDIFLORUM—Blooms all the winter.

- 855. ÉTOILE D'OR—Yellow; blooms nine months in a year. 1s.
- 856. MADAME FARFÆILLON.
- 857. MAXIMUM Pure white, yellow eentre; fine for cutting. 6d. each; 4s. per doz.
  - 858. MINIATUM- White.
  - 859. PINNATIFIDA—Beautiful foliage.
- 860. SPECIOSUM (Leucanthemum)—Supposed to be the original variety.
- 861. ULIGINOSUM (Pyrethrum) White, large yellow centre, blooms in September; a valuable hardy species, splendid for cut flowers.

6d. caeh; flowering plants, 1s, each,

THE FIRST CHRYSANTHEMUM SHOW IN ENGLAND was held at Norwich in the year 1825, and the names of the varieties exhibited were:—Tasselled Yellow, Clustered Pink, Yellow Cluster, Silver White, Yellow Flame, Early Blush, Changeable Pale Buff, Large Lilac, and Golden Yellow. How happy nurserymen and gardeners must have been in those days, with so few and such easy names!

(54)

BRANCHING ETOILE D'OR,

#### NEW SINGLE FLOWERED ANNUAL CHRYSANTHEMUMS.

These novelties were obtained by crossing C. coronarium on to C. carinatum, and will prove a valuable addition to this class, and also very useful for cutting and decorative purposes.

862. \*CHIEFTAIN-Large, bright yellow, dark disc; fine.

colour, 866. \*PRINCESS MAY—White with deep yellow ring round an orange dise; fine shape.

867. \*SUNSHINE - Bright clear yellow, golden dise, florets broad; large and fine.

\*Received an Award of Merit. 1s. each.

#### DOUBLE MARGUERITE (CORONARIUM CLASS).

Blooms all the year.

868. aAURORA, DOUBLE (Cannell) -Bright yellow flowers, small and wonderfully neat and pretty; invaluable for cut flowers, and for button-holes not excelled hy any other flowers. First-Class Certificate. 6d.; flowering plants, 1s. 6d.

#### SULPHATE OF AMMONIA.

This will be found useful in the cultivation of the Chrysanthemum, more especially to swell out the buds, and give vigour to the whole plant. 6d. per lb.; 7 lbs., 2s.; 14 lbs., 3s. 6d.; 28 lbs., 6s. SPECIAL PRICES FOR LARGER QUANTITIES.

H. CANNELL & Sons have the largest collection of the oldest and newest varieties in strong plants or enttings always ready, and warranted true to name. Also every appliance for exhibiting them.

Extract from the "British Gardening."

"It is not generally known that Mr. H. Cannell, of Swanley, proposed that the 'National Chrysanthemum Society' should assume that title. The Society, as reported a week or two ago in this journal, was originally a local organization, but Mr. Cannell, with his characteristic farsightedness, saw a future before it if it would but adopt the title of the National Chrysanthemum Society. The then president sconted the idea and vigorously opposed it. Eventually, however, it was adopted, with the results already known—namely, that it has grown into a powerful institution with a very wide reputation."

H. Caunell, Senr., would be glad to propose those sending 5s. as Members of the above Society.

STEEL TWEEZERS.

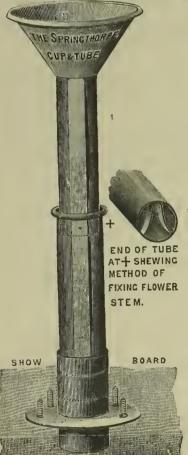

FOR PULLING OUT THE GREEN EYE OR CENTRE, AND DEFORMED PETALS. Price 1s. 9d. each.

#### IVORY TWEEZERS.

All who wish to have their Blooms in Perfect Shape on the Exhibition Table must have these.

Post free for 3s. 6d.

# AWARDED HIGHEST RECOMMENDATIONS BY THE R.H.S. AND N.C.S. OF ANY TUBES YET EXHIBITED.

PROVISIONALLY PROTECTED No. 7141, 1894.

## For Exhibiting Chrysanthemums and other Flowers.

The Cup has one Brass Side Spring which enables the exhibitor to adjust his flower with speed and accuracy in the tube or Water Container. It also has a very simple arrangement to prevent the necessity of plugging. X The Tube or Water Container has also one Brass Side Spring which passes through a Flange fixed to the Showboard from the under side.

By using these Tubes the exhibitor can raise his flowers seven inches from the board, with instant adjustment.

#### ITS ADVANTAGES ARE-

Simplicity, Ease of Adjustment, Durability, Efficiency, and Great Saving of Time.

For Incurved size, 1 inch diameter

PRICE 9s. PER DOZEN

Of the finest make and best quality. Will last many years.

Ordinary make and quality, in case complete, 17s. 6d.

We hope all exhibiting the produce, either from our Seeds, Plants. and Manure will kindly drop us a note as to quantity, &c., and sufficient specially printed cards will be immediately sent to affix to each exhibit.

Anyone having seedlings or sports, or newly introduced Chrysanthemums of a distinct character, are respectfully requested to send blooms and full particulars to H. Cannell & Sons, Swanley, whose collection is the largest, best kept, and most complete, forming a continuous bank of 1,200 feet, blooming lovely; beyond question the finest sight of this grand flower ever offered for public inspection. All are asked to "Come and See" during the season. Many thousands of plants specially grown for export to all parts of the world.

Mr. GEO. CROSS, Secretary, Chrysauthenum Club, Timaru, New Zealand, 27th October, 1896.

MESSRS. H. CANNELL & SONS' CHRYSANTHEMUM SHOW HOUSE, 160 FT. × 25 All should come and see it during October and November.
